ABOUT US

Into Positive is a creative consultancy think tank that produces responsible, meaningful and quality visual communication content and manages art events. We work on innovative ideas for clients in numerous international and local organizations who trust in our commitment, philosophy and creativity.

Our team of experienced photographers, filmmakers, cinematographers, designers, artists, and editors work together to find solutions to suit each client's specific needs. We also have a large network of trusted professionals who support our endeavors. Working closely with our clients, we deliver the highest quality turnarounds, on time.

Our goal is to work towards a positive future with clients, who are actively working to improve society. No matter the time or situation, our company promises to focus on finding ways to bring out the rays of hope, from even the direst of situations. We choose to live in the hopes of a better world and be a driving force for positive change.

Into Positive has been operating since its beginning as an organization of sole proprietorship. From the beginning of influx at 2017, Into Positive has been working in the emergency humanitarian response for the Rohingya population in Cox's Bazar, along with other development projects throughout Bangladesh. Our team has been conducting its operation in Cox's Bazar through our zonal office there for the purpose of producing quality documentation.

Into Positive began its operation in the development sector with the vision of igniting hope amongst the underprivileged through photography and videography. With this view, we have worked with various local and international agencies including UN throughout Bangladesh. In 2017, when the Rohingya population fled for their lives to Bangladesh, Into Positive started documenting their struggles, livelihood and gradual transformations towards a better life collaborating with various agencies working in the camps in Cox's Bazar region.

Into Positive has successfully documented stories on the background of Climate Change, Education, Health, WASH, DRR, Food and Nutrition, Shelter, Protection, GBV, CWC, energy and Environment, Site Management etc. Our vast portfolio includes clients including OXFAM Novib, OXFAM AMERICA, UNHCR, UNICEF, IOM, WFP, FAO, UNDP, ISCG, Save the Children, Plan International, International Rescue Committee and several others and we have efficiently delivered photo and video content as per stakeholder requirement within the given timeline.
